WEST ALLIS - 110 YEARS

1906

2016

The West Allis Historical Society was incorporated in June of 1966, as an affiliate of the State Historical Society and has been located on this site since then. During the past 50 years the Society has accumulated thousands of artifacts related to the area and specifically West Allis. The Cream City brick schoolhouse has served as the Society's museum for nearly 50 years.

The West Allis Preservation Commission was an out-growth of both the Society, a private 501 C (3), and the city's Sesquicentennial Committee of 1997-98 which is responsible for the erection of our log cabin schoolhouse and the Historic Honey Creek park.

Article 3 of the 1966 Articles of Incorporation for the West Allis Historical Society

The purposes shall be to preserve, advance and disseminate knowledge of the history of the City of West Allis. To this end, said corporation may collect printed or near printed materials, manuscripts, materials reproduced by microfilm or other photographic process, and artifacts relating to the history of said city. It may hold property, both real and personal, in any amount; may lend, sell, lease or rent such property provided such action be consistent with the terms of the gift, bequest, or other conveyance under which title was originally acquired. It may hold exhibits, stage pageants, erect markers, sponsor or engage in activities of any kind consonant with the major purpose outlined above either on its own or with any other agencies, local or otherwise.

Thanks to the foresight of both private citizens and city leaders, this marvelous "hidden" treasure has served this community for the past 50 years with hopes to continue to share our history for generations to come.
